

Ariz Pervez Khan

Ghazipur, Uttar Pradesh, India

+91-8447864304 | khanariz541@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Entry-level Software Developer skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, Python, SQL, and MERN stack development. Experienced in building responsive full-stack web applications, REST APIs, real-time features using Socket.io, AI-based chat applications, and clean user interfaces with Tailwind CSS. Strong understanding of Object-Oriented Programming, Operating Systems, DBMS, and web development fundamentals.

Education

Integral University
B.Tech in Computer Science
CGPA: 8.0/10

Lucknow, Uttar Pradesh
2023 – 2026

Jamia Millia Islamia
Diploma in Engineering
Percentage: 77.2%

New Delhi, Delhi
2019 – 2022

Gauri Shankar Public School
Secondary School Certificate
Percentage: 71.2%

Ghazipur, Uttar Pradesh
2019

Technical Skills

Languages: JavaScript, Python, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, API Integration
Database: MongoDB, SQL
AI/ML Tools: TensorFlow, Keras, Streamlit, NLP, Speech Recognition, pytsx3
Tools: Git, GitHub, VS Code, Postman
Core Concepts: OOP, DBMS, Operating Systems, Web Development

Projects

Talksy - Real-Time Chat Application

GitHub | Live Demo

React.js, Zustand, Node.js, Express.js, Socket.io, MongoDB

- Developed a real-time chat application using Socket.io to enable instant message delivery and interactive communication.
- Built RESTful APIs with Node.js and Express.js and connected the application with MongoDB for reliable data storage.
- Implemented global state management using Zustand to improve application structure and frontend data handling.
- Designed a responsive and mobile-friendly user interface to deliver a smooth user experience across devices.

DeepSeek AI Clone - AI Chat Application

GitHub | Live Demo

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, DeepSeek API

- Built an AI-powered chat application that fetches responses from the DeepSeek API and displays results in a clean chat interface.
- Implemented backend routing using Node.js and Express.js to manage API requests and user query handling.
- Stored user queries and application data in MongoDB to support persistent data management.
- Created a responsive React.js and Tailwind CSS interface optimized for fast rendering and better usability.

AudioQ-A - Voice-Based AI Q&A Chatbot

GitHub

Python, Streamlit, TensorFlow, Keras, NLP, SpeechRecognition, pyttsx3

- Built a voice-enabled AI Q&A chatbot using Streamlit with both text input and microphone input support.
- Integrated speech recognition to convert voice input into text and pyttsx3 to generate spoken audio responses.
- Loaded a trained TensorFlow/Keras model with tokenizer and label encoder for intent classification and response generation.

Internship Experience

Octanet Services Pvt. Ltd.

Lucknow, Uttar Pradesh

Web Development Intern

July 2024 – August 2024

- Built and enhanced web application components using React.js, Tailwind CSS, Node.js, and MongoDB.
- Improved UI responsiveness, integrated APIs, fixed bugs, and optimized application performance.
- Collaborated with senior developers to implement new features and maintain consistent design across pages.

Certifications

- Full Stack Development with MERN - Ziksha
- Java - Apna College
- Data Analytics Job Simulation - Deloitte
